

**NEW HEATER OFFERS EASY INSTALLATION**

Circle 100 on Reader Service Card

**SELF-PROGRAMMING CLEANER RELEASED**

Circle 101 on Reader Service Card

**TELEDYNE LAARS/JANDY** introduces the *Laars LX*, redesigned to offer complete control over every facet of pool and spa heating. New features include fan-assisted, controlled combustion that virtually eliminates downdraft and corrosion-resistant polymer headers designed for greater flow capacity, resulting in longer heater life. In addition, the new design's 29-in.

profile, small footprint and tileless construction make it light and easy to install. It also features quick-connect pipe fittings, a convenient gas valve location and reversible connections you can switch from right to left to suit your particular plumbing configuration. **Teledyne Laars/Jandy Products**, Novato, CA.

**AQUAVAC** introduces the *AquaVac TigerShark*, an advanced portable pool cleaner made for those who insist on the very best. *TigerShark* calculates the size of the pool and programs itself into the most time and energy efficient pattern for a spotless pool. Cleaning times are preset at five and ten hours. The cleaner's powerful on-board pump sucks up dirt and debris while roving both the bottom and walls for a pool that sparkles from rim to rim. *TigerShark* features an easy cartridge filter: Simply rinse and clean it with a garden hose. This long-lasting unit features one of the best warranties in its category. **Aqua Vac Systems Inc.**, West Palm Beach, FL.

**Chemtrol™ PC**

*The Most Advanced Pool Automation Systems*

The **CHEMTROL™ PC Programmable Controllers** give the pool operator full access to all water treatment operations at pool site or from any computer.

The **fully integrated** controller includes chemical maintenance, water balance, Langelier Saturation Index, heater control, recirculation pump control and automated filter backwash, with all menus operational in English, French or Spanish.

Remote operation features include **true duplex control** and **24-hour automatic scanning** of multiple facilities. All test data can be displayed as text or graphics. Telephone communications include voice status reports, voice alarm callouts and remote control by touch-tone phone.

*Direct from your pool to your computer!*

For more information, call today or visit our Web site at <http://www.sbcontrol.com>.

## RUGGED CHLORINATOR WITH VARIOUS CAPACITIES

Circle 102 on Reader Service Card

CHLORINATORS INC. offers *Regal* gas chlorinators, safe because their all-vacuum operation eliminates the possibility of a chlorine gas leak throughout the chlorinating system and because the units are direct-mounted with a heavy duty, vise-type yoke. These reliable devices are made of rugged chlorine- and corrosion-resistant

materials and have a simple design. *Regal* chlorinators are available in capacity ranges from four to 2,000 pounds per day. **Chlorinators Inc.**, Palm City, FL.

## PUMP LINE OFFERS ADVANCED FEATURES

Circle 103 on Reader Service Card

HAYWARD POOL PRODUCTS INC.'s *NorthStar* high performance pump series comes complete with full flow ports, *ClearView* strainer cover, CPVC union connections, high-profile base, *QuadLock* for simple access, non-corrosive construction and more. *NorthStar* features a proprietary motor design engineered to provide a minimum of 35,000 hours or 10 years of extended use. In addition, this design allows the motor to run up to 20% cooler and at a low decibel level. Each motor is power coated with *Perma-Coat*, making it resistant to salt air environments. **Hayward Pool Products Inc.**, Elizabeth, NJ.

## WATERFALL EFFECTS IN VARIED CONFIGURATIONS

Circle 104 on Reader Service Card

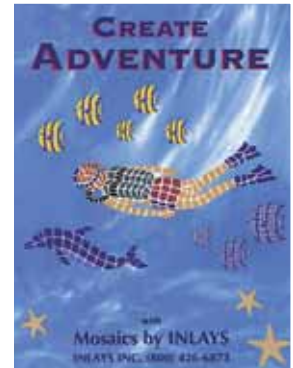

RAYPAK's RP100 digital heater features a digital control unit with liquid crystal display (LCD) for temperature selection and heater settings. The heater's *Capron* resin headers prevent rust stains from harming the pool surface, and its microprocessor controls diagnostic read-outs and continuously monitors operating status. It is completely field servicable, efficient and reliable in wind. **Raypak**, Westlake Village, CA.

## MOSAICS FEATURED IN NEW CATALOG

Circle 107 on Reader Service Card

INLAYS' "Create Adventure" catalog details a variety of mosaics, including its *Oceanic Series* and *Oceanic Series Groupings*. Included in the product line are items such as crabs, angelfish, divers, dolphins, seahorses, trigger fish, turtles, sea lions and more. **Inlays Inc.**, Green Bay, WI.

## SPECIAL SPA-LIGHTING SYSTEM INTRODUCED

Circle 105 on Reader Service Card

FIBERSTARS' *FS2 Spa Illuminator* is a compact, quiet light source for use with its fiberoptic lighting systems. The illuminator uses a 75W quartz halogen lamp with a 3,000 degree K color temperature. The *FS2* is UL listed for dry and concealed locations and has a high-output cooling fan for high-heat environments. It is available with a four-color wheel for dramatic color changes in the spa. A 400-fiber capacity port allows for a wide variety of fiber combinations. The unit is designed specifically for use in spas and spa peripherals. It works well with point-to-point lighting applications or for perimeter strip lighting, and it is engineered to be adaptable to virtually all spa pack and cord configurations. The illuminator is available with white light only or with your choice of two color wheels. **Fiberstars**, Fremont, CA.

## DURABLE LASER-LEVELER NOW OFFERED

Circle 108 on Reader Service Card

LASER ALIGNMENT offers its *LB-10 series Laser Beacon 4900* model, an outdoor-level unit designed to provide years of reliable and accurate leveling performance. Covering a 2,000 ft. diameter with a complete range of construction accessories, the unit is simple to set up and use by any construction crew. The bright, visible beam of the interior version *LB-10* provides levels for all types of indoor and outdoor construction applications. Additional head speeds and scanning features add to the visibility and useful function of the *LB-10*. Also available from the manufacturer are accessories for productivity, including the *Rod Eye-6* and *Rod Eye-4*. **Laser Alignment Inc.**, Grand Rapids, MI.

## NEW CATALOG HIGHLIGHTS PUMPS AND PARTS

Circle 106 on Reader Service Card

AQUA-FLO's 44-page "1999 Product Catalog" includes its full line of pumps and replacement parts, including: "A" and "AC" series, *Dominator*, *Flo-Master* and *Tub-Master*. Also included in the catalog are replacement motors, fittings and more. **Aqua-Flo**, Chino, CA.

## FULL-FEATURED CONCRETE PUMP

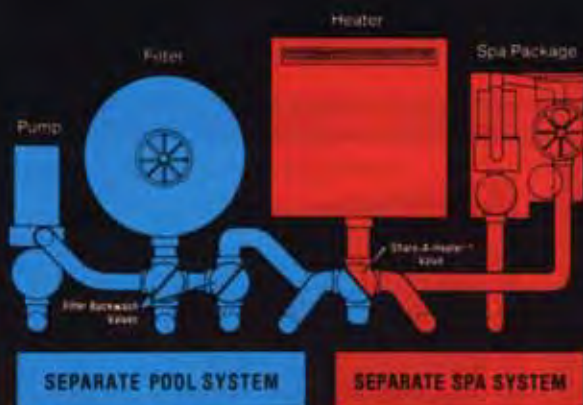

Circle 109 on Reader Service Card

MAYCO's *ST-70* mid-range concrete pump is made to place 1-1/2-in. aggregate concrete pump mixes. The unit features hydraulic pressure options, versatility, an easily removed hopper, volume control, reverse pumping, hydraulic surge brakes and more. Available options include an engine cover, a mixer/agitator hopper, air or electric vibrators and high-pressure water. **Mayco**, Carson, CA.

Continued on page 56

Actually, the Share-A-Heater Valve™ doesn't make a revolution —it is one. A very simple 90°, one-quarter turn revolution, either manually or automatically, enables separate Pool and Spa Systems to economically *share* one (1) common Heater System (Fossil Fuel/Solar/Heat Pump) with two (2) totally independent Pump/Filter Recirculation Systems; one for Pool and one for Spa. Both Systems can be operated *simultaneously*; while one is heating the other is filtering and vice versa. Simple and Easy.

The Share-A-Heater Valve™ is only one of the state-of-the-art valves and valve systems manufactured by markUrban. All offer unequalled high-performance, enormous-flow, and High-Temp CPVC capabilities. They have no abrupt 90° turns, only smooth 45° and double 45° bends in their large flowpaths. They *do not* require flow or pump shut-off to operate as their unique design and construction *eliminates* flow dead-heading or water-hammer; all totally safe and convenient. Available in both manual and automatic operation.

### BROCHURE DETAILS NATURAL STONE PRODUCTS

Circle 110 on Reader Service Card

GEORGIA MARBLE CO.'s four-color "Royalty in Stone" leaflet describes its line of natural stone: natural building stone, boulders and marble flagging. Available stone designs include New York White, Tiger Stripe, Wyoming White, Pine Green, Charcoal, River Slicks, Smoky Mountain Flagstone, Rustic Pine Log, Pecan Chunks and more. Also included in the booklet are specifications sheets.

**Georgia Marble Co.**, Kennesaw, GA.

### SOFTWARE PACKAGES ASSIST DESIGN PROCESS

Circle 111 on Reader Service Card

DESIGN IMAGING GROUP offers four software packages designed to increase sales and profits—and save time. *Splash!* pool-design software is a PC-windows based computer-aided drafting (CAD) software program specifically developed for pool contractors and designed for ease-of-use. *Splash!* will help you quickly design a pool, give you the calculations for an estimate and print out a site plan. *DesignWare* allows pool designers to create a photo-realistic image of the pool design concept, sell higher value projects, and provide full-color pictures that show real color, textures and forms.

**Design Imaging Group**, Holtsville, NY.

### CONCRETE PUMP FOR PRECISE WORK

Circle 112 on Reader Service Card

SCHWING AMERICA's BPA 450-10 specialty pump achieves its controlled output through small-diameter pumping cylinders and a 39-in. stroke for maximum 20 yds. per hour output—the ideal combination for refractory material, shotcrete repairs and small line pours that require low output for precision placement. Schwing's *Rock Valve* provides high sealing efficiency while minimizing wear within the housing, benefiting in reliability and low cost per yard for maintenance.

**Schwing America Inc.**, St. Paul, MN.

## DECK-DRAINING SYSTEM INTRODUCED

Circle 113 on Reader Service Card

**GRATE TECHNOLOGIES** introduces its *Drain The Deck* system, which consists of two components. The first is an extruded, UV-stabilized PVC trench-drain base. This base unit commences at 4-in. wide to accept the 1-in. deep grate, then shifts to a 2-1/2-in. width and a further 2-1/2-in. depth. These areas have a rounded bottom for smooth water flow and an overall depth of 3-1/2-in. The system is easy to install and to clean. The second component is a 4 in. wide, 1-in. deep grate and offers interlocking T-bar construction that runs perpendicular to the drain – and with the open space for water flow being 35%, it drains the deck. By using this deck-drain system, you can aesthetically balance the pool and deck drainage grate. Standard colors include beige, white, gray and black. It has slots to enable fastening down by using stainless steel clips and comes in 10-ft. lengths with joiner sections, corners, end and down sections and adapters. **Grate Technologies Inc.**, Naples, FL.

## POSTER HIGHLIGHTS WATERFEATURE SYSTEMS

Circle 114 on Reader Service Card

**NATURESCAPES** offers its "Ultimate Environments" pull-out poster leaflet, which highlights its new *Castart* rock and waterfeatures such as *Sandstone* series, featuring planter pockets and versatile layered components – all of which can be installed in less than one day. Also included in the leaflet are its *Classics*, *Custom* and *Fossils* product lines. **Naturescapes**, Tucson, AZ.
