Defeating Drought

Dry times are inevitable, writes Eric Herman; and, at present, all indications are that much of the Western U.S. is in the early stages of what looks to be a severe drought. That's why, he says, the sooner we face the reality of ever-increasing demand for freshwater and dwindling supply, the sooner society can push back against the potential horror and disaster of water shortages.

WOLFPACK WEBINAR Special Presentation with Aqua Magazine

Mark your calendar, Wednesday June 30, and be sure to tune in for a special Wolfpack Webinar Wednesday presentation featuring Scot Webb, executive editor of AQUA Magazine. Scott will be on hand with host Eric Herman to discuss the results of the magazine's 2021 Builder Survey, part of its recent State of the Industry issue. Given the extraordinary market and challenges facing builders, it should be a fascinating discussion.
