Featuring

Desert Dazzle

Marilyn Monroe's legacy has a new home in a plaza directly adjacent to the recently dedicated Downtown Park in Palm Springs, Calif. It's a beautiful public space with an ingenious design that blends the modernism of the fabled resort city, while harmonizing with the natural desert environment. In addition to Ms. Monroe's famous visage, It also features a truly beautiful and inventive watershape.

Molecular Reinforcement

Is it possible that a new "wonder material" only one molecule thick can actually reinforce concrete? A group of U.K. scientists studying Graphene are claiming that concrete strengthened by Graphene can be twice as strong as structures doing the job with steel. The possible implications for future concrete structures are self-apparent. This article from *Dezeen* looks at the dramatic findings.

Winter Delights

An important part of creating a human environment in harmony with nature is planning for and designing with the cycle of the seasons in mind, a subject covered in this classic *WS* April, 2001 article from the late Suzanne and Ron Dirsmith. They believed that a blending of fine architecture and landscape design into the natural environment, all in careful harmony with human beings, demonstrates both a reverence and a respect for nature.
