Considering Plant & Pools

For many watershapers, plants are a mere afterthought. That's a mistake, says "garden artisan" Scott Cohen. He takes the opposite approach by embracing planted areas as one of the primary design elements in all of his company's projects. Doing so, he explains here, reduces liability, increases project control and opens up myriad design possibilities.

THE STARS ARE ALIGNING

Digging Deep

The project started with all the stress of figuring out how to satisfy regulators angered by the homeowner's previous attempts to beautify a protected streambed. Colleen Holmes saved the day by jumping through countless hoops -- then left her client with a lovely, hard-won haven.
