Featuring

The Art of Installation

While the meaning of “art” has been pondered for millennia, many of those who pursue creating art believe the answer lies in the finest details, and the struggle needed to achieve them. Jimmy Reed argues the installation process itself is the true essence of artistry, and the only way to make gemstones from tile and water.

Fluorine 18.998

Chlorine 35.453

Chlorine (a reactive history)

Swimming pools and chlorine have been synonymous for more than a century. Even today, while alternative sanitizers and technologies designed to reduce -- or some say eliminate -- the use of chlorine gain market share, products based on the "17th element" remain the workhorse of recreational water treatment.

Desalination: Promise and Peril

As water crises around the world become more common, while soaring population and climate change stress already-overused water systems, it's clear more resources are needed. Making use of abundant ocean water seems like a better and better deal -- or is it? Find out here in this detailed look from *Gizmodo*.
