Featuring

New World Horizons

For Joan Roca, coming to U.S. from Central America was the result of professional evolution and a process of personal growth, all of which led him to a new home in Florida, and a much bigger market. He made the change because he believed that, as a watershape designer, the U.S. offered the best opportunity to pursue his highest creative ambitions.

Treasures in the Sand

There are many ways to enjoy a visit to the beach. From surfing to sunbathing, the sand's edge encompasses some of the most enjoyable human experiences. For some, the preferred activity involves little more than wandering the shore with a pair of keen eyes looking for treasures in the form of sea glass.

A Divine (and Deadly) Pit of Mystrey

Bodies of water are often the center of attention, especially those located in historic settings. When the water is the subject of mystery and folklore, interest can be piqued even higher. That's certainly the case for a spring known as Fosse Dionne in France's Burgundy region, where the water is shrouded in death, myth and mystery.

Water Under Pressure (classic)

Successful plumbing design for watershapes all boils down to a need to understand the relationship between water flow and line velocity, says hydraulics expert Steve Gutai, in this *WaterShapes* classic technical discussion.

Essential Construction Live and In-Person

While the convenience and flexibility of online courses has huge advantages for people looking to advance their pool-construction knowledge, at Watershape University we also know there is no substitute for in-person instruction. That's why we're offering one of our most popular courses come November in Las Vegas.
