## Planting Design with Style

One of the lingering ironies of designing planted areas is that although plants are arguably the most impactful of all landscape elements, they are also often left as an afterthought. Mark David Levine, argues elevating planting starts with understanding planting design style.

## A Question of Leadership

As the pool and spa industry continues to surge into a seemingly bright future, veteran designer Kevin Woodhurst asks big questions about where our industry will find the leaders of tomorrow. The answers, he believes, come from within those who have witnessed the industry's dynamic evolution.

## The Two-Ocean Stream

It's the only feature of its kind in North America: a place in Wyoming where visitors can watch a flow of water divide on the crest of the Continental Divide, beginning journeys that lead thousands of miles in opposite directions, eventually flowing into the Pacific and Atlantic Oceans.

## Liquid Layering (classic)

In his designs, custom watershaper Steve Oliver finds steady inspiration in the simple grandeur of water as it flows from one level to another. In the project seen here, for example, he uses an array of vanishing edges and gentle cascades to enhance and extend views from a home on the rim of the Arizona desert.
