Featuring

Steps to a View

Unfolding during the heart of the pandemic, this beautiful remodel in the fabled Hollywood Hills gave JC Escudero an opportunity to work his renovation magic in a truly breathtaking and vintage setting. The result is a pool area that celebrates both the view and the property's mid-century design.

Turning to Revit

As design and construction become ever more dependent on sharing accurate information among project team members, the Revit platform has come to represent the state-of-the-art in modeling and plan-sharing software platforms.

Working in Water

While watershaping is very much about adding fun, health and beauty to our lives, it's impact on society is far more all-encompassing. The control, treatment and distribution of water is arguably the true yard stick of civilization, one of the main ingredients in human existence.

Shuttered Reinforced Concrete

Civil engineer, Jerome Licata was interested in having a swimming pool installed at his home when he decided to pursue something new. He discovered a unique, stay-in-place formwork system as a way to create a concrete-reinforced pool structure.
