Featuring

Eastern Horizons

Japanese gardens are much more than pagodas, lanterns and Bonsai trees, says Jason Brownlee. Studying these timeless masterworks that are so artfully inspired by nature is, he says, one of the best ways to elevate watershape and landscape design of almost all types.

The Muddy Legend of Lake Dolores

Long before waterparks became recreational fixtures the world over, a lonely desert playground in southern California built on a system of muddy ponds revealed both the possibility, and liability, of high-impact interactive water play features.

Commentary: Becoming a Modern Watershaper

Despite decades of being derided as an industry that has been unable to change for the better, Mark Holden argues that some segments of the pool industry have, in fact, dramatically improved in recent years. Moving to higher professional ground, he says, requires elevating practices across a range of important fronts.

A Voice of Vision and Reason (Celebrating 25 Years of WaterShapes)

From the magazine's earliest days,

industry leader, Vance Gillette, was a guiding influence, dogged supporter and trusted friend. He also contributed insightful commentaries, such as this visionary discussion from November 2010.
