Featuring

Nature Made by Design

According to pond specialist, Larry Carnes, in order to mimic nature when designing and building ponds, waterfalls and streams, the process involves a comprehensive understanding of geological principles, the plant kingdom, water treatment, and how to avoid telltale mistakes.

Gentle Solutions (Rejecting the Use of Muriatic Acid on Fresh Plaster)

Using acid on newly installed cementitious surfaces is a bad idea, says plaster expert and teacher, Jon Temple. Here he explains his approach to using milder solutions removing mineral residue on exposed aggregate surfaces as a way to avoid common problems and defects.
